# carlton ec1000 user manual

Login to post You may need ADOBE READER installed on your computer to read PDF documents. You can download this free at WWW.ADOBE.COM if necessary. Click on the DOWNLOAD ADOBE READER button on right side of the ADOBE home page when you get there, then follow the onscreen instructions to install the software on your computer. I hope that was helpful to you, good luck and take care. Joe. You will have to use Internet Explorer to access it. I hope this helped you and thanks for using FixYa. It says Lo in the bottom reading. Also, was the timer set to turn the unit OFF at a specific time. If the unit wasn't working properly a couple of hours ago. Check the air intake filter for excessive dirt or clogs. While the unit is OFF, remove the bucket, empty it if needed and carefully replace it, making sure it is fitted properly in to its holder. Hope this has helped you further troubleshoot and solve the problem. To assist you further, in case you have misplaced yours, I am including a link to your Owners Manual that you can download and print for future reference. This site seems to limit posts to 150 kb. It does not show an exploded parts diagram either. I don't know what parts you are calling the interior panel connectors. Although we cannot ask for email addresses, I've seen some people post some... Possibly try I have provided some common solutions to help guide you in your search. Most dehumidifiers have access to the fan through the front. Below is a link to download pdf format users manuals. You must register to access the information, free. You will need the information off the product data tag, then enter Type of product Brand Name Model Number. If my assistance helped resolve this issue, please show your appreciation by rating how effective my advice was in resolving this issue. I have provided some common solutions to help guide you in your search. <http://www.g-flow.com/images/editor/bosch-refrigerator-manual-b26ft70sns.xml>

This link,, provides exploded view imagery, belt routing diagrams, parts imagery and function, parts ordering and shipping information, error code details, just about anything you need to get your appliance up and running again. Just follow the links to navigate through the site. You will need to enter the model number stamped on the manufacturers product information data tag, located on the unit, and not in the User's Manual. Clicking on the underlined links will take you directly to that page. Note A volt ohm meter is beneficial in performing electrical tests. Some models utilize a defrost thermostat that simply switches the compressor off and on. This can be replaced by unsnapping it from the condensor coil. Another type uses a defrost control kit to cycle the compressor and is a little more involved in the replacement. The bucket makes contact with a switch allowing it to run. When the bucket becomes full its weight trips the switch and shuts the unit off. Humidity control goes to 01% and can't be adjusted. Bucket Full light is flashing, not steady on. Micro switch won't reset it. What is this Can you tell me how to fix this problem Also unit is not picking up any water in bucket Cleaning filter does not help. About four years old. Need to open case and check for rust Answer questions, earn points and help others. Login to post Its great to hear that youre satisfied with your microwave. My apologies after searching and believe me I searched everywhere I have been unable to locate a manual for the Carlton C21CS09. You have my apologies for the inconvenience caused. Kind regards, Matt Try Curries in the UK they are cheap units made for sales as specials. Beware tho if they break down they are considered throw away. Capacity 17 litres, Microwave wattage 700W, Grill wattage 1000W. External dimensions WDHmm 440x318x252, Stainless steel door with. CARLTON C17GSS09 please visit their online

The following informative notes are intended to assist Buyers, particularly those inexperienced or new to our salerooms. All sales are conducted on our printed Conditions of Sale which are readily available for inspection and normally accompany catalogues. Adobe Indesign Cs6 Full En Mega on this page. Our staff will be happy to help you if there is anything you do not fully understand. As auctioneers we usually contract as agents for the seller whose identity, for reasons of confidentiality, is not normally disclosed. Accordingly if you buy your primary contract is with the seller. Estimates are designed to help buyers gauge what sort of sum might be involved for the purchase of a particular lot. The lower estimate may represent the reserve price and certainly will not be below it. Estimates do not include the Buyer's Premium or VAT where chargeable. Estimates are prepared some time before the sale and may be altered by announcement before the sale. They are in no sense definitive. Buyers Premium. The Conditions of Sale oblige buyers to pay a buyers premium at 21% on the hammer price of each lot purchased. This imposition of VAT is likely to be because the seller is registered for VAT within the European Union and is not operating the Dealers Margin Scheme or because VAT is due at 20% on importation into the UK. Lots which appear without either of the above symbols indicate that no VAT is payable on the hammer price. This is because such lots are sold using the Auctioneers Margin Scheme and it should be noted that the VAT included within the Premium is not recoverable as input tax.

We are, primarily, agents for the seller. We are dependent on information provided by the seller and whilst we may inspect lots and act reasonably in taking a general view about them we are normally unable to carry out a detailed or any examination of lots in order to ascertain their condition in the way in which it would be wise for a buyer to do. Intending buyers have ample opportunity for inspection of goods and, therefore, accept responsibility for inspecting and investigating lots in

which they may be interested. Please note carefully the exclusion of liability for the condition of lots contained in the Conditions of Sale. Neither the seller nor we, as the auctioneers, accept any responsibility for their condition. In particular, mechanical objects of any age are not guaranteed to be in working order. However, in so far as we have examined the goods and make a representation about their condition, we shall be liable for any defect which that examination ought to have revealed to the auctioneer but which would not have been revealed to the buyer had the buyer examined the goods. Additionally, in specified circumstances lots misdescribed because they are deliberate forgeries may be returned and repayment made. There is a 3 week time limit. The expression deliberate forgery is defined in our Conditions of Sale. Electrical goods unless they are sold as antiques only are checked over for compliance with safety regulations by a qualified electrician and are guaranteed up until the Wednesday following the sale. shes definitely a killer and im in love. The more you play, the more likely the tuning will get better. Another thing you can do is make sure its set up properly. Play in the tuning the guitar is set up for most likely Standard E, and itll stay in tune nicely. Other than that, I dont know whats wrong with it. Best of luck, those guitars are killer.
